- JavaScript
- UI/UX
- Figma

Development Tools:

- Visual Studio Code
- Git
- GitHub

EDUCATION

B.Tech

REVA University

Computer Science & Information Technology

Bangalore, India

2020 – present

CGPA - 8.46

Pre-University :

84.33% - PCMCS

Class 10th :

93.60%

PROJECTS

Gym Management System

- An Efficient Gym Management System Website.
- The end result is a simplified gym operation for users, with a user-friendly UI and UX."

My Portfolio Website

- I tried to create a captivating website by blending simplicity with visual charm, carefully selecting an aesthetic color palette to enhance the overall user interface."

Hungry Snake

- is a web-based project where I've recreated the beloved Snake Game that many of us cherished on old Nokia phones.
- I tried to bring back the simple joy of this classic game, Aimed to capture the simplicity and fun of the original game

Dove UI/UX Research Project

- This is a UI/UX-based project where I tried to analyze and explore how the famous brand Dove uses UI/UX
- An incredible learning experience, understanding how UI/UX plays a pivotal role in the success of a project, brand and app.
